

Synagis Season Begins

In July 2007, CenCal Health partnered with McKesson Specialty as the vendor for the Specialty Pharmacy Program. One of the mandated therapies under specialty is Synagis. CenCal Health and McKesson Specialty experienced a very positive response last year, and we are once again preparing for the upcoming Synagis season. CenCal Health and McKesson Specialty are looking forward to assisting members and providers with the dissemination of Synagis through our specialty pharmacy. All Synagis orders will need to be submitted to McKesson Specialty. The Synagis order form is available on our website, www.cencalhealth.org. If you need assistance, please contact McKesson Specialty at (877) 222-4138 or CenCal Health's Provider Services Department at (800) 421-2560 extension 1676.
