

CenCal Health has added several new drugs to our Formulary during the first quarter of 2009 based on clinical review, provider interest, cost and utilization analysis. All of the changes represent expansions of our current Formulary thus giving more choices to the prescribing physician. The changes are represented in summary on the chart below. All of the drugs listed below are now formulary.

January - March 2009

Drug	Class	Formulary Status	Restrictions/Limits	Implementation Date
Additions
