

CenCal Health has added several new drugs to our Formulary during the second quarter of 2009 based on clinical review, provider interest, cost and utilization analysis. All of the changes represent expansions of our current Formulary thus giving more choices to the prescribing physician. The changes are represented in summary on the chart below. All of the drugs listed below are now formulary. *Please note the implementation dates as some of the additions and changes do not become effective until July and August 2009.*

April - June 2009
